MUNICIPAL INDEBTEDNESS OF THE CITIES AND CHIEF TOWNS OF THE THREE PRAIRIE PROVINCES

№ 12

This Graph prepared by the undersigned has been done wholly on his personal responsibility. No interest or individual has any connection directly or indirectly therewith. It has been made to enable one to grasp readily and it is trusted at least approximately the financial situation of the chief Municipalities of the three Prairie Provinces. Thinking the information might be of some interest or value, is the reason for the distribution of the same, necessarily a limited one.

The basis of compilation was first, Wood Gundy Company's Municipal Statistics, 1917, and embraces all Municipalities in the three Prairie Provinces shown in said publication. When compiled it was sent to the Clerk of every Municipality requesting corrections if there were errors, and any further information if available, that it was desired to be presented. Those who replied are indicated by (A).

Several Municipalities refused to furnish data desired fearing its credit might be adversely affected. Others evidently considered the request as altogether inquisitorial.

Most Municipalities claim its Debentures for Utilities should not be considered as a part of its indebtedness, insisting they are self supporting and in some cases revenue bearing.

Local Improvement indebtedness is the amount chargeable to General Taxation. In at least many, if not all the Municipalities, maintainance must be provided by General Taxation, and as these Improvements will deteriorate rapidly, necessitating repairs, this item is likely to be materially increased.

Excepting Calgary, the Total Debt № 2, may be larger than the amount stated. Some Municipalities probably many, have hypothecated for temporary loans their unpaid taxes. Debentures authorized but not sold, or other securities. In the case of Calgary that amounts to $ 2.000.000. and that sum has been included in № 2. Could not readily ascertain this item in the others. Each will however know what that amount, if any, is. If it will furnish the undersigned that data, a graph amended in accordance therewith will be made.

Calgary 14th. August, 1917. W. Peare
